Re: CCRA Affirms Its Support for Two-Way Bicycle Lane on Market Street, from 20th to 23rd.

Dear Jeannette,

Thank you so much for informing us that the two-way bicycle lane on Market Street, between 20th and 23rd, will be switching from the south side of the street to the north side. Our support for this project continues unabated.

When we approved this project in April, we based our decision on three main points: a bike lane on this stretch of road is badly needed; motor vehicles will continue to have the four lanes they have today; loss of curbside parking is minimal, and loss of Zone 1 residential parking permit spaces is zero. Moving the bike lane to the north side of the street has no effect on any of these issues.

We are happy to affirm our continued support for this project, and stand ready for further consultations as needed.

Yours sincerely,

Richard Gross
